MY WEBSITE/PORTIFOLIO:

HTTPS://GUSTAVOCAMPANHA.GITHUB.IO/GUSTA-SITE/

GOAL

My main goal is to add value, with my knowledge, to my colleagues, either developing projects or sharing experiences. I am a technology lover.

HABILIDADES

Over the years I've developed the ability to be self-taught, I'm able to solve the problem, because if I don't know, I'll learn to solve it. Another big point is the way I communicate with my teammates.

EXPERIENCE

I dedicated part of my free time to personal projects. As an example, I have a completely customizable password generator in Python and an extremely complete Excel spreadsheet to control expenses and investment.

All this you can see on the website that I developed myself.

EDUCATION

HIGH SCHOOL
"Military College of Rio de Janeiro" – 2017-2019
